- Simple implementation process and easy-to-administer coverage
- Comprehensive plans including medical evacuation, hospitalization and sick visits
- Custom plan options to address specific needs
- Coverage for U.S. and non-U.S. citizens traveling outside their home country including foreign employees visiting the U.S. on business

## SERVICES THAT COME WITH BLUE CROSS BLUE SHIELD GLOBAL TRAVELER

When your employees travel on international business, you want to be sure they have a program that provides the support they need.

### Telemedicine

We know business travel can be demanding. Getting sick or injured while away from home can add stress to a trip and accessing medical care can be challenging due to the condition or location. We've teamed up with Teladoc Health to bring travelers Global TeleMD™, a telemedicine app, that provides convenient 24/7 access to doctors for non-emergency medical concerns.

### Pre-Departure Program

We know traveling can be both exciting and stressful and preparation is the key to success. Our pre-departure program allows travelers to speak with a clinician about any health-related questions or concerns before they leave for their trip. Travelers can access the program via a link in the member guide which directs them to a brief questionnaire.

### Evacuation Services

If a member is in a situation that requires an evacuation, our medical team will activate relationships with key international medical experts to successfully overcome obstacles and limitations in any part of the world, to ensure the member receives the best care possible.

### Global Safety Intelligence

Our digital interfaces promote personal safety by giving members convenient access to important tools and news. Information is based on the user's profile and past activity and includes daily alerts detailing the latest security and health issues in a specific destination, and country or city profiles on crime, terrorism and natural disasters.

### Digital Tools

Our Member Hub and mobile app provide convenient access to a variety of tools and services. Members can quickly and easily manage their medical care needs - from finding a doctor or hospital and arranging direct pay to translating a medication and locating a pharmacy.
